SWAMP ANGELS."

The Only True Story of the Origin of a Famous North Carolina Feud.

The Lowry Gang Organized Solely to

is dead, yet lives and may again spring up.
Who that read the newspapers twenty
years ago does not remember the deeds of the Lowry gang, or "Swamp Angels," whose headquarters were in and around Scrabbleton, Robeson county, N. C.? More terrible than the Hatfields, as daring as the James boys, the Lowrys for over four years defied and held at bay county sheriffs and the legal arms of North Carolina. There are those who will tremble when they hear that Henry Berry Lowry still lives. The writer of this article last week talked with

writer of this article last week taked with a prominent North Car linan, who ass ires him that the famous leader is in the flesh and can be found when the time comet.

A quarter century before the civit war a vessel was wrecked on the North Carolina coast under somewhat suspictous circumstances. Her captain, a Portugese, went to the interior of North Carolina and being to the interior of North Carolina, and being to the interior of North Carolina, and being a good judge of land, bought a fertile estate in Robeson county. Here he soon married a creole woman, with a trace of colored blood in her veins.

The Portuguese have no color prejudices. To this is due their remarkable successes in dealing with the savages of the tropics. If they had scientific training they would be the greatest explorers in the world. It

be the greatest explorers in the world. It is a fact not generally known that Portuguese traders had penetrated every nook and cranny of Africa, from Zambezi to the Congo, and Niger on the north, and the Zanzibar coast on the east, in search of gold and ivory, long before Livingstone or Stanley set foot on the Dark Continent. The torrid climate agrees with them. Already thousands of Portuguese half-breeds are reging the keepest of traders through proving the keenest of traders through the country not monopolized by the

The Portuguese captain, to return, cut off from his neighbors, partly by his lonely location, partly by his birth and marriage and still more from inclination, lived a quiet life hunting in the neighboring woods and swamps, raising corn, tobacco and cotton for a little ready money and dis-tilling spirits for his own use. When the war broke out half a dozen stalwart sons war broke out hair a dozen statwart sons and several daughters had grown up around him. The girls were magnificent brunettes, adorned with more than ordinary comliness and the sons were splendid specimens of manhood, dead shots, daring riders and as handsome as toreadors. By marriage the sons and daughters had attached several families and nowerful interpolated several families and nowerful intercase the Lowrys. Like many North Carolinians they were intense unionists, and after the attack on Fort Sumner found themselves between two fires.

Robeson county is on the South Carolina line, and Cheraw, with 'ts hot-blooded secessionists, was but a half day's ride to the west. In order to avoid conscription on himself and his kinsmen, one McLean, Triennial Conclave Knights Templar, one of those uppopular orgranizations which sprang up all over the south, with the sole purpose of acting as draft gangs to force their unwilling neighdraft gangs to force their unwilling neighbors to take up arms for the southern confederacy. The McNeils and McClarys, kinsmen of McLean, m de up its member ship. Along in 1863, after numerous unsuccessful attempts to capture the Lowry boys, Capt. McLean, with his press gang, one day rode up to the Lowry nouse, called out Capt. Lowry, then past his prime, and ordered him to tell the hiding place of his boys. He refused. Infuriated, they stripped him to the wais', bound his boys. He refused. Infuliated, they stripped him to the wais', bound him to a tree, and gave him 100 cashes. His back and arms a mass of cut and bleeding fiesh, the heroic Portugesestill refused to betray his sons. Turning him around they riddled him with builets, and he fell, dying, to the ground, hissing male dictions in his native tongue, through clenched teeth, on his murderers. With mingled fear and fury—fear lest a witnes might be left, fury that their vengeance

mingled fear and fury—fear lest a witnes might be left, fury that their vengeance should be balked—the press gang strove to wrest the secret from Mrs. Lowry.

"D—— her, give the wench the same treatment," shouted one of the marauders. In a moment she, too, fell dead by her murdered husband. Their foul deeds done, but baffled of the prey they sought, the Home Guards filed toward Lumberton. By their crimes a feud was born.

their crimes a feud was born.

When Henry Lowry discovered the dead bodies of his father and mother he gathered the family and made them swear never to cease their vengeance while a Mc Lean, McNeil, or a McCleary was left alive in Robeson county. The times were unpropitious then for carrying out their feud It slumbered and the Lowrys bided their time. In 1867 a McLean was shot near Lumberton. The following year two McLeans and a McNeil were killed, and Robeson county awoke to the fact that the feud was op. Before 1868 had closed a half-dozen of the three offending families had bitten the dust and the Lowrys had hardly begun. Sheriff after sheriff sought to arrest them and failed. In the impenetrable recesses of the swamps the Lowrys hid, emerging on their errands of death through paths known only to themselves. ered the family and made them swear through paths known only to themselves Yet when a month or two of peace had brought a seeming respite the Lowrys, armed to the teeth would ride the higharmed to the teeth would ride the high-ways of Robeson, dash through the streets of Lumberton, and even strike across the line to Cheraw. Once Henry Barry Lowry was captured. He immediately escaped. Again he was captured and taken to the Wilmington pail for safe keeping. It was there the writer's informant interviewed him.

"I was prejudiced against the Lowrys," said he. "I had known nothing of their side of the story until an old Methodist preacher had told me, when he heard of Henry Berry Lowry's capture, of the strong sympathy which many people had for the Swamp Angels. I was allowed to see him in the debtor's room of the isil. see him in the debtor's room of the jail. When the outlaw leader, with a dozen prices on his head, entered the apartment, I saw a man of 30 odd years, tall and splendidly proportioned, herculean, even with a dark Spanish face and an expression of absolute command and tearlessness. A thick growth of jet black curing hair covered his fine head, and coal black eyes gleamed from beneath heavy brows.

"I have heard of you,' said he to me. 'I am told that you are abrave honest man

I want you to come down to Scrabbleton.

It would be interesting a race oack to the first acts of aggression the various fends which still exist to stain the records of the south and west, feuds which still exist to stain the records of the south and west, feuds which set family against family and divided communities and counties into hostile camps, ever growing and extending their ramifications by the ties of kith, kin and relationship. The Hatfield-McCoy vendetta, which has been also grown of the south two states, still exist and its end is not yet in view, says the Wasnington Post.
